

District 7 ranks 10th, the lowest of all districts. This is of significant concern as this district has the highest percentage of the children in the city. Life expectancy and social mobility are lower than the city average.

Philadelphia Children's Health & Well-being

	PERCENT ENGLISH-ONLY	45%
	PERCENT FOREIGN-BORN	13%
	PERCENT CHILDREN (0-17)	32% (52,119)
RACE/ETHNICITY		
MAJORITY	SECOND-LARGEST	
LATINX**	AFRICAN-AMERICAN†	

District 7 has the highest population of children living across the city. Forty-five percent are English speaking only. There are no Health Dept. health centers, 9 Federally Qualified Health Centers, 38 district schools, 1 community school, 6 selected Rebuild sites, and 42 parks contained within or bordering the district.

COUNCIL DISTRICT **7**

RANKING:
10

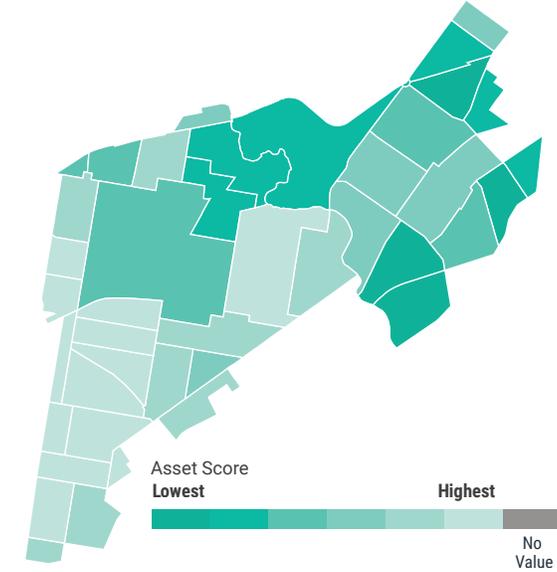

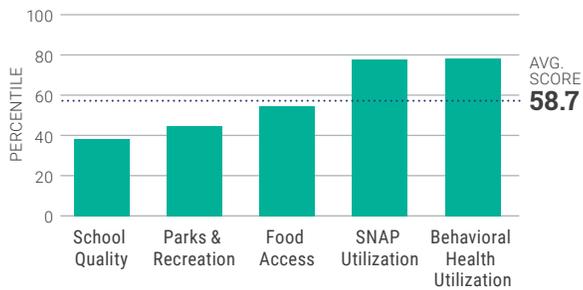

RISK SCORE

Adults experiencing an Adverse Childhood Experience (ACE) is in the 95th percentile. Low educational attainment and family poverty are in the 88th and 80th percentiles.

ASSET SCORE

There is high behavioral health and SNAP utilization. School quality is below the 40th percentile.

MITIGATING ASSETS

	District 7 Score	Best Score (District #)	Comparison
School Quality	38.1	82.3 (10)	
Park and Recreation Access	44.7	72.9 (5)	
Fresh Food Access	54.4	73.4 (1)	
SNAP Utilization	77.9	77.9 (7)	
Children's Behavioral Health Services Utilization	78.4	78.4 (7)	

KEY TAKEAWAY

District 7 ranked the lowest across the city. Almost every adult living here reported exposure to childhood trauma. That said, the district has assets to build upon, particularly behavioral health and SNAP utilization. It is good that residents are accessing these services and they should be used to help mitigate the significant risks in this district. Given that Latinx comprise the largest ethnic group, assets and risks must be considered from a cultural context.
